

Website Content Checklist

NwSSU Computer Engineering Organization Portal

Use this checklist to gather the necessary verified content before publishing or expanding the website. Keep public information concise, official, and approved before it goes live.

Core Public Content

- Organization name, logo, and short overview
- Mission and vision statements
- Official officers and faculty adviser list
- Contact details and official social links
- Membership guidelines, process, and requirements
- Organization history or important milestones

Student Content

- Announcements and important notices
- Upcoming and past events
- Academic resources such as notes, reviewers, tutorials, and lab guides
- Curriculum guide by year and semester
- Program outcomes
- Course descriptions
- Downloads and useful student links

Community Content

- News stories and organization updates
- Gallery photos and activity albums
- Alumni profiles
- Alumni batch or graduation-year archive
- Featured alumni spotlights

Account and Admin Content

- User roles for students, editors, and administrators
- Team tasks for editors
- Admin and editor profile photos
- Account approval, pending, and suspension statuses

Most Important Next Content

- Real organization profile details: mission, vision, officers, and adviser
- Real academic resources: notes, reviewers, curriculum files, and links
- Real event data for upcoming and completed organization activities
- Real gallery and news photos with dates and descriptions
- Real alumni profiles grouped by batch or graduation year
- Official contact email, office hours, and social links

Publishing Note

Prioritize verified details first, then add richer photos, resources, and alumni stories over time.
